

HEALTHCARE
DATA INSTITUTE

| POSOS

Posos is an AI based decision support solution, capable of understanding and contextualizing drug-related questions

- **Project Leader**

Emmanuel Bilbault emmanuel@posos.fr

Marc Adamowicz marc@posos.fr

Posos leverages state of the art NLP techniques, enabling complex queries in medical documents (structured & non structured) with a single question.

Our first achievement is an artificial intelligence that understands drug-related questions and immediately provides healthcare professionals with trustworthy answers from official data sources.

- **Mentor**

Adel Mebarki, DGA chez Kap-Code
